

MADRID: WORLD BIGGEST CAMPING SITE

7th May 2010,
Madrid

Madrid will become the biggest camping site in the world.

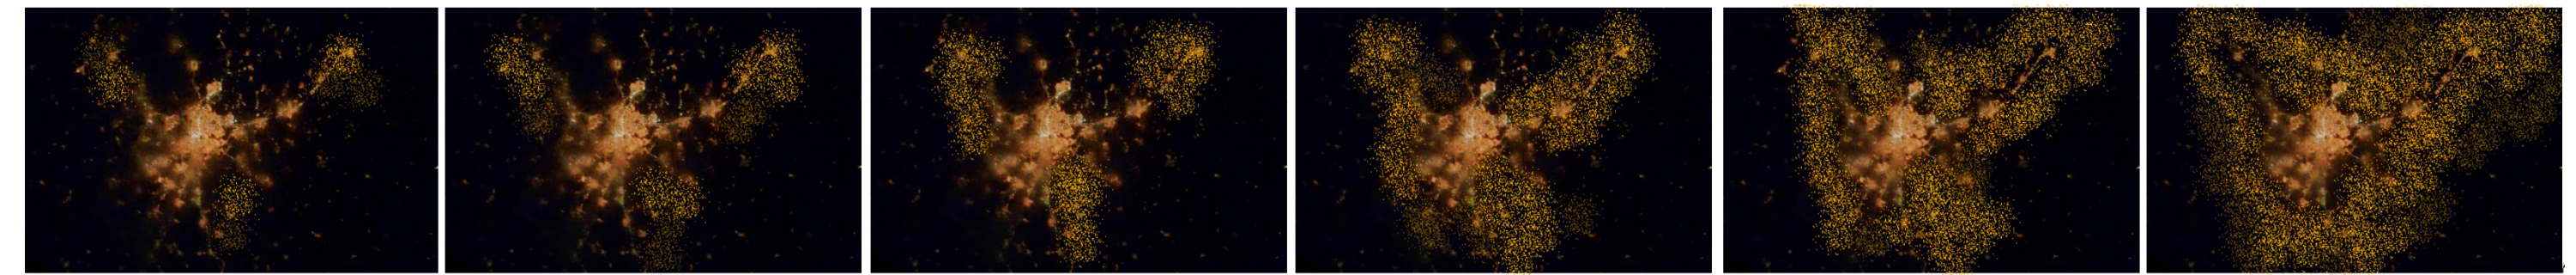

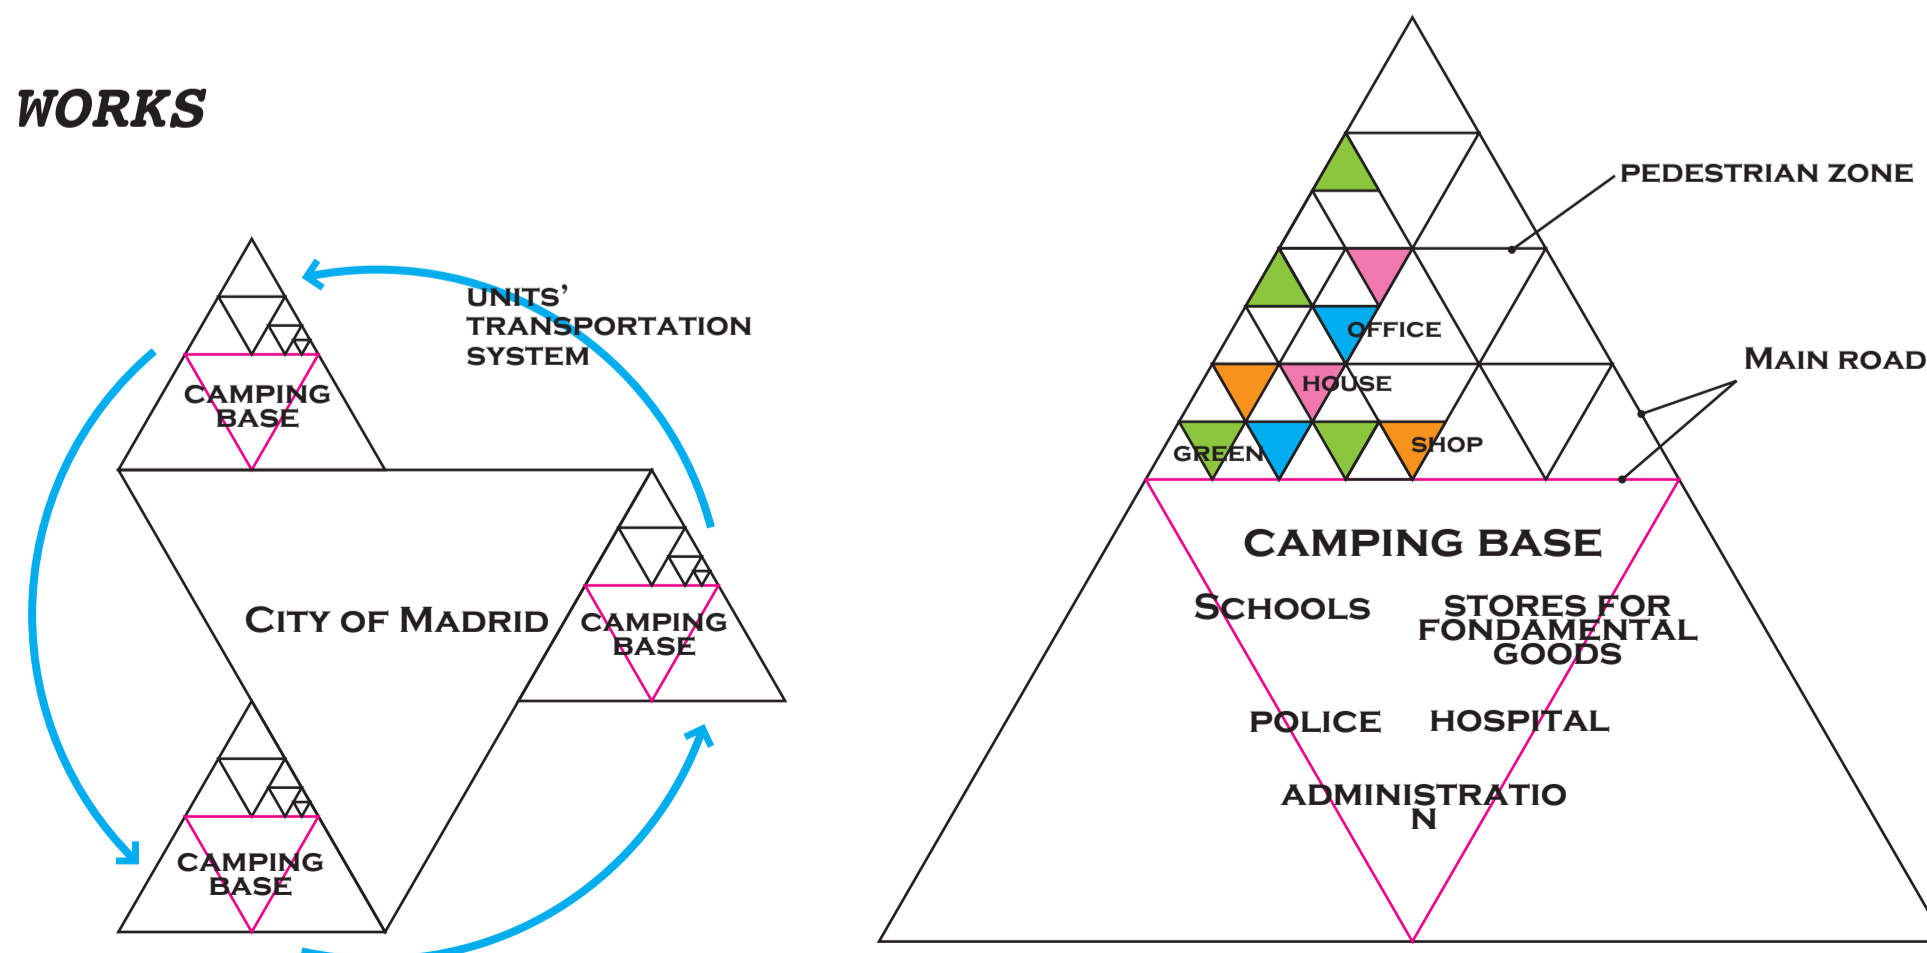

New villages will be developed in the outskirts of centre Madrid, providing just the pedestrian friendly infrastructure and fundamental services.

Residents are free to occupy any part of the village regardless of function of the units.

FRACTAL SYSTEM: HOW IT WORKS

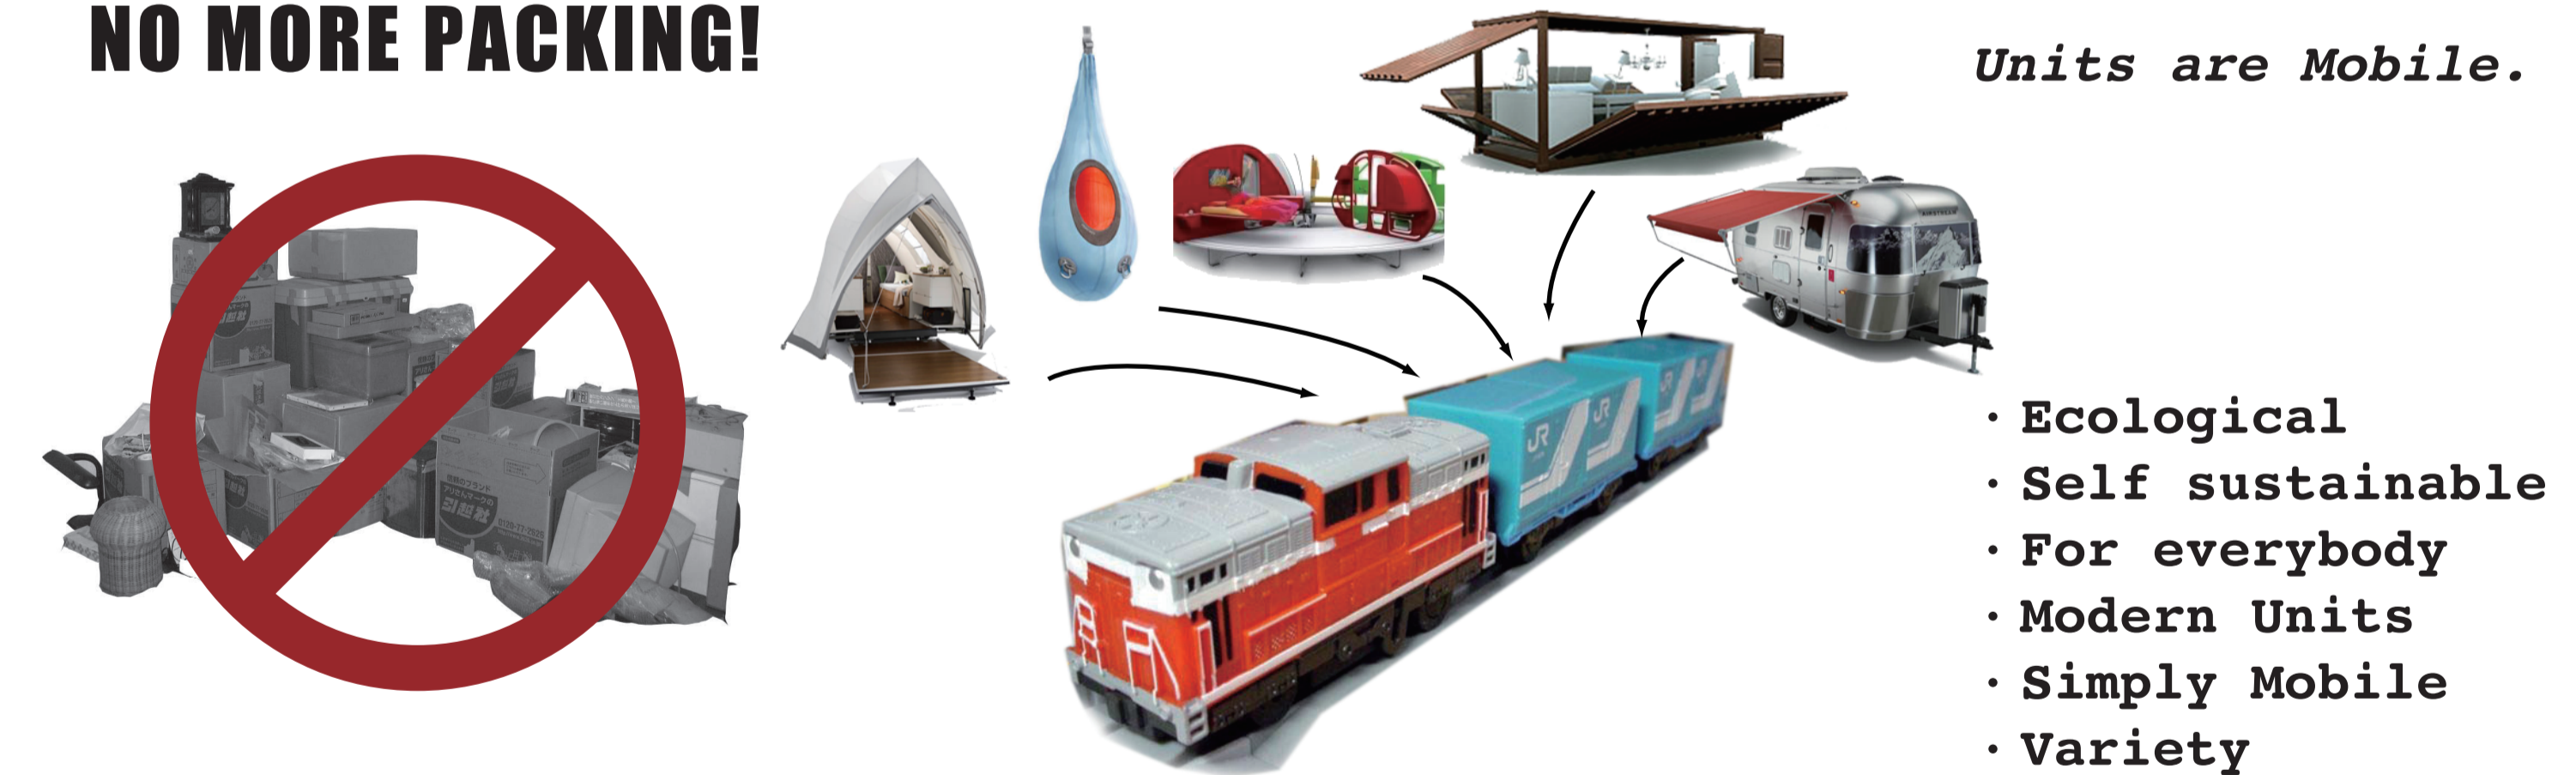

The idea came from this fractal triangles small triangles are forming bigger triangles but each triangle has in itself is self sustainable system

CAMPING EVOLUTION

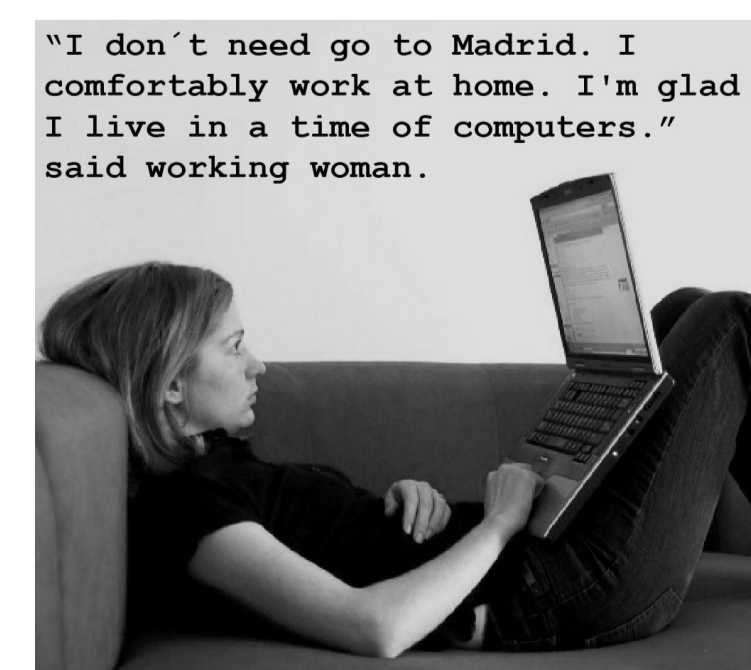

NO MORE PACKING!

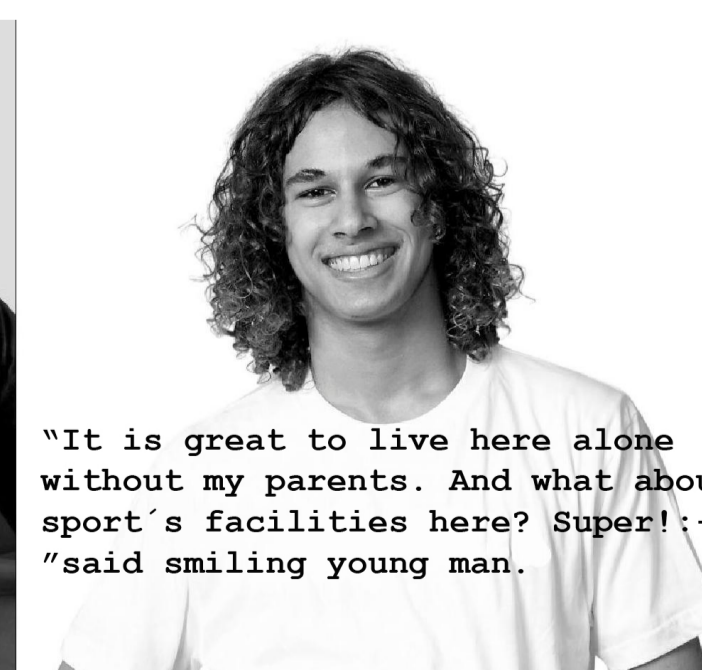

Units are Mobile.

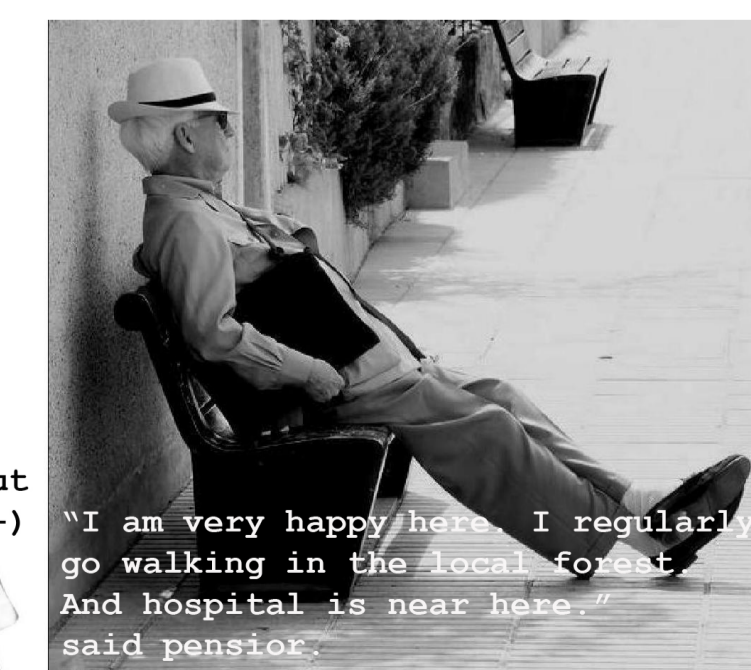

- Ecological
- Self sustainable
- For everybody
- Modern Units
- Simply Mobile
- Variety

"I don't need go to Madrid. I comfortably work at home. I'm glad I live in a time of computers." said working woman.

"It is great to live here alone without my parents. And what about sport's facilities here? Super!:-)" said smiling young man.

"I am very happy here. I regularly go walking in the local forest. And hospital is near here." said pensioner.

"Here is beautiful environment for my children. We are whole day in nature and we enjoy it here!" said happy mom.
