

## CÁLCULO DE UNA TRIANGULACIÓN

En una triangulación se han observado los ángulos del polígono de la figura. Los valores son:

1 = 75,6481	4 = 56,6935	7 = 59,8880	10 = 111,9682
2 = 65,4259	5 = 76,9728	8 = 57,4568	11 = 47,7284
3 = 58,9315	6 = 66,3392	9 = 82,6580	12 = 40,3049
	13 = 95,8025		
	14 = 49,1852		
	15 = 55,0093		

Se pide realizar las compensaciones que admite la figura.

### SOLUCIÓN

1 = 75,6470	4 = 56,6924	7 = 59,8878	10 = 111,9685
2 = 65,4252	5 = 76,9720	8 = 57,4571	11 = 47,7290
3 = 58,9278	6 = 66,3356	9 = 82,6551	12 = 40,3025
	13 = 95,8043		
	14 = 49,1873		
	15 = 55,0084
